FITNEXA

Client Knowledge Base — Fitness, Health & Nutrition Store

Purpose: This document is a structured knowledge base for a Fitnexa website, customer-support system and AI chatbot. It contains 20 illustrative product records and customer-facing information.

> **Important:** Product names, prices, specifications and nutrition values in this document are **demo/sample data**. Before selling real products, replace them with verified manufacturer labels, certificates, batch information, legal declarations, actual prices and current stock.

Chatbot instruction: The chatbot should answer questions using the product facts in this knowledge base. It should never invent an ingredient, nutrition value, medical claim, warranty, certification, stock status or price that is not present in the current database.

Recommended response behavior: Be helpful, concise and customer-friendly. For allergies, medical conditions, pregnancy, medication interactions, injury or disease-related questions, provide general information and recommend consulting a qualified healthcare professional rather than diagnosing or prescribing.

Product Index

ID	Product	Category	Demo Price	Quantity
FX-001	Fitnexa Whey Protein – Chocolate	Protein / Sports Nutrition	■2,499	1 kg (33 servings)

FX-001 — Fitnexa Whey Protein – Chocolate

Category	Protein / Sports Nutrition
Demo Price	■2,499
Quantity	1 kg (33 servings)

Customer-friendly description: A demo whey-protein product for post-workout nutrition. Designed for customers who want a convenient protein source to support daily protein intake and muscle recovery.

Material / composition: Food-grade whey protein concentrate blend; food-safe packaging.

Quality / verification: Demo product specification; intended to represent a standard commercial whey product. Batch testing and certification details should be added before real-world sale.

Ingredients: Whey protein concentrate, cocoa powder, natural chocolate flavour, emulsifier (soy lecithin), sweetener (sucralose), digestive enzyme blend.

Nutrition / key specs: Approx. per 30 g serving: protein 23 g, carbohydrate 3 g, fat 2 g, energy about 120 kcal. Values are illustrative and must be replaced by verified label data.

How to use: Mix 1 scoop with 200–250 ml water or milk. Use after training or whenever convenient to meet protein needs.

Care / storage: Store tightly closed in a cool, dry place. Keep away from moisture. Do not use if seal is damaged.

Customer FAQ / safety note: Contains milk and soy. Not suitable for people with milk-protein allergy. This is a demo listing, not medical advice.

FX-002 — Fitnexa Plant Protein – Vanilla

Category	Protein / Plant Nutrition
Demo Price	■2,299
Quantity	750 g (25 servings)

Customer-friendly description: Plant-based protein powder for customers preferring a dairy-free protein option.

Material / composition: Pea and brown-rice protein blend in food-grade pouch.

Quality / verification: Illustrative product data; final amino-acid profile, allergen statement and certifications must be verified with the manufacturer.

Ingredients: Pea protein isolate, brown-rice protein, vanilla flavour, cocoa-butter powder, sunflower lecithin, stevia.

Nutrition / key specs: Approx. per 30 g: protein 22 g, carbohydrate 3 g, fat 2 g, energy about 115 kcal. Illustrative only.

How to use: Mix one serving with water, plant milk or add to a smoothie.

Care / storage: Store in a cool, dry place and close pouch after every use.

Customer FAQ / safety note: Dairy-free formulation. Check the final label for allergen and cross-contamination information.

FX-003 — Fitnexa Protein Bars – Mixed Pack

Category	Healthy Food / Protein Snack
Demo Price	■699
Quantity	12 bars × 50 g

Customer-friendly description: Convenient protein snack pack for work, college, travel or after exercise.

Material / composition: Food ingredients packed in individual food-grade wrappers.

Quality / verification: Demo formulation; actual shelf life and nutrition must be confirmed by the manufacturer.

Ingredients: Milk protein, oats, dates, peanuts, cocoa, whey protein, honey, chicory fibre and natural flavour.

Nutrition / key specs: Approx. per 50 g bar: protein 12 g, carbohydrate 20 g, fat 7 g, energy about 190 kcal.

How to use: Eat as a snack when convenient. Pair with water or another balanced meal depending on dietary needs.

Care / storage: Keep sealed in a cool, dry place; avoid direct sunlight.

Customer FAQ / safety note: Contains milk, peanuts and oats. Customers with allergies should check the final package label.

FX-004 — Fitnexa Rolled Oats

Category	Healthy Food
Demo Price	■299
Quantity	1 kg

Customer-friendly description: Plain rolled oats suitable for breakfast bowls, overnight oats, smoothies and home recipes.

Material / composition: Whole-grain oat flakes.

Quality / verification: Simple single-ingredient demo product with no intended added flavour.

Ingredients: 100% rolled oats.

Nutrition / key specs: Approx. per 100 g: protein 13 g, carbohydrate 68 g, fat 7 g, fibre 10 g, energy about 380 kcal.

How to use: Cook with water or milk, or soak overnight. Add fruit, nuts or seeds as desired.

Care / storage: Store airtight in a cool, dry place.

Customer FAQ / safety note: Contains oats and may contain traces of other cereals depending on facility.

FX-005 — Fitnexa Natural Peanut Butter

Category	Healthy Food / Nut Butter
Demo Price	■399
Quantity	500 g

Customer-friendly description: Creamy peanut butter designed as a protein-containing spread for toast, oats, smoothies and snacks.

Material / composition: Roasted peanuts; food-grade jar.

Quality / verification: Demo product. Separation of natural oils can occur and is normal for a minimally processed formulation.

Ingredients: 100% roasted peanuts.

Nutrition / key specs: Approx. per 32 g: protein 8 g, carbohydrate 6 g, fat 16 g, energy about 190 kcal.

How to use: Spread on toast, mix into oats or add to smoothies. Portion according to dietary goals.

Care / storage: Stir if natural oil separates. Store in a cool, dry place; refrigerate after opening if recommended on final label.

Customer FAQ / safety note: Contains peanuts. Not suitable for peanut allergy.

FX-006 — Fitnexa Mixed Nuts & Seeds

Category	Healthy Food / Snack
Demo Price	■549
Quantity	500 g

Customer-friendly description: Mixed snack containing nuts and seeds for convenient energy, fats, protein and micronutrients.

Material / composition: Roasted nuts and seeds in food-grade resealable pouch.

Quality / verification: Demo blend; exact roasting method and nutritional values should be verified before publication.

Ingredients: Almonds, cashews, walnuts, pumpkin seeds and sunflower seeds.

Nutrition / key specs: Approx. per 30 g: protein 6 g, carbohydrate 6 g, fat 15 g, energy about 180 kcal.

How to use: Eat as a snack or sprinkle over oats, yogurt or salads.

Care / storage: Keep sealed and dry. Refrigeration may help preserve freshness.

Customer FAQ / safety note: Contains tree nuts and seeds. Check final allergen label.

FX-007 — Fitnexa Electrolyte Hydration Mix – Lemon

Category	Hydration / Sports Nutrition
Demo Price	■499
Quantity	20 sachets

Customer-friendly description: Flavoured electrolyte powder intended for convenient hydration during exercise or hot conditions.

Material / composition: Food-grade powdered drink mix in sealed sachets.

Quality / verification: Demo product. Sodium, potassium and sugar levels must be confirmed from the final formulation.

Ingredients: Dextrose, citric acid, sodium citrate, potassium chloride, natural lemon flavour and permitted sweetener.

Nutrition / key specs: Illustrative per sachet: carbohydrate 6 g; electrolytes include sodium and potassium. Exact quantities must be verified.

How to use: Dissolve one sachet in the volume of water stated on the final label.

Care / storage: Keep sachets dry and sealed until use.

Customer FAQ / safety note: Not intended to replace medical treatment for dehydration or illness. People with medical conditions affecting electrolyte intake should consult a professional.

FX-008 — Fitnexa Multivitamin Gummies

Category	Wellness / Supplement
Demo Price	■599
Quantity	60 gummies

Customer-friendly description: Demo gummy supplement concept providing a selection of vitamins for adults.

Material / composition: Gelatin or pectin-based gummy depending on final formulation.

Quality / verification: Must be manufactured and labelled according to applicable Indian food/supplement regulations before sale.

Ingredients: Pectin or gelatin, glucose syrup, sugar, natural flavour, citric acid and vitamin premix.

Nutrition / key specs: Vitamin quantities must be taken from the final approved label; do not infer doses from this demo listing.

How to use: Follow the final package directions and do not exceed the stated daily serving.

Care / storage: Store cool and dry; keep away from children.

Customer FAQ / safety note: Supplements should not be presented as cures or substitutes for a balanced diet.

FX-009 — Fitnexa Creatine Monohydrate

Category	Sports Nutrition
Demo Price	■899
Quantity	250 g (50 servings)

Customer-friendly description: Pure creatine monohydrate powder concept for customers seeking a simple creatine product.

Material / composition: Creatine monohydrate powder in food-grade container.

Quality / verification: Final product should use verified purity testing and an approved batch specification.

Ingredients: Creatine monohydrate.

Nutrition / key specs: Creatine is not primarily a source of calories or protein. Serving size and purity must be confirmed by the final label.

How to use: Use only according to the final product label. Mix into water or another suitable beverage.

Care / storage: Keep tightly closed and dry. Avoid moisture contamination.

Customer FAQ / safety note: Customers with kidney disease or other medical concerns should consult a qualified healthcare professional before using supplements.

FX-010 — Fitnexa Shaker Bottle

Category	Fitness Equipment
Demo Price	■399
Quantity	750 ml

Customer-friendly description: Reusable shaker for mixing protein powders, hydration mixes and other beverages.

Material / composition: BPA-free food-contact plastic body, screw lid, mixing ball.

Quality / verification: Designed as a durable everyday shaker concept; final material certification should be confirmed by supplier.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Add liquid first, then powder, close lid and shake. Do not use with boiling liquids unless the final product is rated for them.

Care / storage: Hand wash or use dishwasher only if the final manufacturer's instructions allow it. Dry fully before storage.

Customer FAQ / safety note: Check for leaks before placing in a bag. Replace if cracked or damaged.

FX-011 — Fitnexa Resistance Bands Set

Category	Fitness Equipment
Demo Price	■799
Quantity	5 bands

Customer-friendly description: Set of resistance bands for home workouts, mobility and strength exercises.

Material / composition: Latex or latex-free elastic material depending on final supplier; reinforced handles/loops where applicable.

Quality / verification: Bands should be checked for tears and excessive wear before each use.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Suitable for controlled resistance exercises. Start with lower resistance and maintain safe form.

Care / storage: Keep away from sharp objects, excessive heat and direct sunlight. Do not overstretch beyond manufacturer limits.

Customer FAQ / safety note: Customers with latex allergy should select a verified latex-free version.

FX-012 — Fitnexa Yoga Mat – Pro

Category	Fitness Equipment / Yoga
Demo Price	■1,199
Quantity	183 × 61 cm, approx. 6 mm thick

Customer-friendly description: Cushioned exercise mat for yoga, stretching, mobility and floor workouts.

Material / composition: TPE or other verified exercise-mat material depending on final supplier.

Quality / verification: Non-slip performance varies with surface and sweat; inspect before use.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Place on a clean, flat surface. Use barefoot or with suitable training footwear.

Care / storage: Wipe with mild soap and water; air dry completely. Avoid harsh chemicals.

Customer FAQ / safety note: Do not use if the mat has tears or becomes unusually slippery.

FX-013 — Fitnexa Adjustable Dumbbell Pair

Category	Fitness Equipment
Demo Price	■2,999
Quantity	2 adjustable dumbbells

Customer-friendly description: Compact strength-training equipment with adjustable resistance for home workouts.

Material / composition: Steel/iron weight components with protective coating and textured handles.

Quality / verification: Inspect locking mechanisms before every use. Exact maximum load depends on the final model.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Adjust weights only when the dumbbell is stable and follow the supplied safety instructions.

Care / storage: Keep dry and wipe after use. Store securely away from children.

Customer FAQ / safety note: Do not drop weights or use damaged locking parts.

FX-014 — Fitnexa Smart Digital Kitchen Scale

Category	Nutrition / Kitchen Equipment
Demo Price	■699
Quantity	1 scale

Customer-friendly description: Compact digital scale concept for measuring food portions and ingredients.

Material / composition: Tempered glass or food-safe plastic platform with electronic components.

Quality / verification: Accuracy should be verified against a known weight and recalibrated according to the final manual.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Place scale on a flat surface, tare the container, then add food.

Care / storage: Do not immerse in water. Wipe surface with a damp cloth.

Customer FAQ / safety note: The scale measures weight; it does not independently determine calories or nutrients.

FX-015 — Fitnexa Air-Fryer Healthy Snack Pack

Category	Healthy Food
Demo Price	■649
Quantity	4 snack packs × 100 g

Customer-friendly description: Demo assortment of simple snack ingredients designed for air-fryer preparation.

Material / composition: Food-grade packaged snack ingredients.

Quality / verification: Final recipe, cooking instructions and nutrition must be validated before sale.

Ingredients: Example blend: chickpeas, makhana, spices, millet crisps and salt. Exact ingredients vary by pack.

Nutrition / key specs: Nutrition varies by recipe. Use the final pack label for calories, protein, fat, carbohydrate and sodium.

How to use: Prepare according to the cooking instructions on the final pack.

Care / storage: Store unopened packs in a cool, dry place; follow final best-before date.

Customer FAQ / safety note: Check ingredient and allergen information on each individual pack.

FX-016 — Fitnexa Makhana – Roasted Masala

Category	Healthy Food / Snack
Demo Price	■249
Quantity	200 g

Customer-friendly description: Roasted fox nuts (makhana) with a light masala seasoning for a crunchy snack.

Material / composition: Roasted fox nuts in food-grade pouch.

Quality / verification: Demo recipe; actual oil and sodium content must be confirmed.

Ingredients: Fox nuts, edible oil, cumin, black pepper, chilli, turmeric and salt.

Nutrition / key specs: Illustrative per 30 g: protein about 3 g, carbohydrate about 22 g, fat about 2 g, energy about 120 kcal.

How to use: Ready to eat. Portion according to individual dietary requirements.

Care / storage: Reseal after opening and keep dry.

Customer FAQ / safety note: Check the final label for spice, sodium and allergen details.

FX-017 — Fitnexa High-Protein Granola

Category	Healthy Food / Breakfast
Demo Price	■499
Quantity	400 g

Customer-friendly description: Crunchy granola concept combining oats, seeds, nuts and protein ingredients.

Material / composition: Baked cereal and nut/seed blend in food-grade pouch.

Quality / verification: Final formulation should specify baking process, allergen controls and verified nutrition.

Ingredients: Rolled oats, almonds, pumpkin seeds, whey protein, dates, cinnamon and a small amount of coconut oil.

Nutrition / key specs: Illustrative per 50 g: protein 10 g, carbohydrate 30 g, fat 8 g, energy about 230 kcal.

How to use: Serve with milk, yogurt, fruit or as a topping.

Care / storage: Keep sealed in a cool, dry place.

Customer FAQ / safety note: Contains milk and almonds. Check final allergen statement.

FX-018 — Fitnexa Protein Oats – Berry

Category	Healthy Food / Protein Breakfast
Demo Price	■449
Quantity	500 g

Customer-friendly description: Flavoured oat mix concept designed for quick high-protein breakfast preparation.

Material / composition: Rolled oats and protein blend in food-grade pouch.

Quality / verification: Demo formulation; final nutrition and shelf life require verification.

Ingredients: Rolled oats, whey protein, freeze-dried berry pieces, chia seeds and natural berry flavour.

Nutrition / key specs: Illustrative per 60 g serving: protein 15 g, carbohydrate 35 g, fat 5 g, energy about 240 kcal.

How to use: Cook with hot milk/water or prepare as overnight oats.

Care / storage: Store airtight in a cool, dry place.

Customer FAQ / safety note: Contains milk and oats. Check final label for cross-contact information.

FX-019 — Fitnexa Stainless Steel Water Bottle

Category	Fitness Equipment / Hydration
Demo Price	■899
Quantity	750 ml

Customer-friendly description: Reusable insulated bottle concept for water and non-carbonated cold beverages.

Material / composition: Food-grade stainless steel inner body, insulated wall and leak-resistant lid.

Quality / verification: Durability and insulation depend on final supplier specifications.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Use for water and suitable non-carbonated beverages. Leave room for expansion with hot liquids and follow final temperature rating.

Care / storage: Wash regularly. Dry with lid open. Avoid abrasive cleaners.

Customer FAQ / safety note: Do not use for carbonated drinks unless the final manufacturer explicitly approves them.

FX-020 — Fitnexa Foam Roller – Recovery Pro

Category	Fitness Equipment / Recovery
Demo Price	■999
Quantity	1 roller, approx. 45 cm

Customer-friendly description: Textured foam roller for self-massage, mobility and post-workout recovery routines.

Material / composition: High-density foam outer body with durable core.

Quality / verification: Designed for normal bodyweight use; do not use damaged equipment.

Ingredients: Not applicable.

Nutrition / key specs: Not applicable.

How to use: Use controlled bodyweight pressure over large muscle areas. Avoid directly rolling over bones, joints or acute injuries.

Care / storage: Wipe with a damp cloth and mild soap. Keep dry.

Customer FAQ / safety note: This is a fitness/recovery accessory, not a medical treatment device.

Fitnexa Chatbot Knowledge Rules

1. Product lookup: When a customer asks about a product, return its current name, category, price and quantity from the product database.

2. Ingredients: For food products, list only the ingredients stored in the verified product record. Never assume a product is allergen-free.

3. Nutrition: Present nutrition values as label data only after they have been verified. If demo values are still being used, clearly state that they are illustrative.

4. Equipment: Explain material, dimensions, care, intended use and basic safety limitations. Do not make medical claims.

5. Orders: The chatbot may explain the checkout process, but should not claim an order is placed, paid or shipped unless the order system confirms it.

6. Stock and price: Treat inventory and prices as dynamic data. If live data is unavailable, say that the current website listing should be checked.

7. Recommendations: Ask about the customer's goal, experience, budget and constraints. Avoid diagnosing conditions or prescribing supplements.

8. Allergies: Encourage customers to read the final package label and contact the manufacturer for cross-contact questions.

9. Returns/refunds: Use the actual Fitnexa store policy. Do not invent a return window or refund rule.

10. Human support: If the customer has a complaint, payment problem, safety concern or question outside the knowledge base, direct them to Fitnexa customer support.

Suggested Chatbot FAQs

Q: What products does Fitnexa sell?

A: Fitnexa can offer fitness equipment, protein products, healthy foods, hydration products and wellness accessories. The exact catalog should come from the live product database.

Q: Can I trust the nutrition information?

A: Use the verified nutrition panel on the final product label. The sample values in this knowledge base are placeholders until verified.

Q: Can the chatbot recommend a protein product?

A: Yes, it can compare products by protein source, serving size, ingredients, price and customer preference. It should not provide medical advice.

Q: Can I ask about ingredients?

A: Yes. The chatbot should list the ingredients stored for the selected product and advise customers with allergies to check the final package label.

Q: Can I use these products for weight loss or muscle gain?

A: The chatbot can provide general educational information, but individual goals vary. It should avoid promising specific results.

Q: Where can I check current prices?

A: Use the live Fitnexa product listing/cart because prices, discounts and stock can change.

Implementation Note for AI Website Builders

Import each product as a structured record with fields such as product_id, name, category, price, quantity, description, material, quality, ingredients, nutrition, usage, care, safety and FAQ. The chatbot should retrieve the relevant record before answering product-specific questions. Keep prices, stock, order status and policies in live database tables rather than

hard-coding them into chatbot responses.
